Office of Traffic Safety Awards \$83,000 Grant to the Claremont Police Department to Improve Traffic Data Reporting

Claremont, Calif. – Claremont Police Department announced today that it has received a grant from the California Office of Traffic Safety (OTS) for a traffic records improvement project to report crash and citation data faster and more efficiently. The grant program runs through September 2026.

"Thanks to this grant, we're upgrading our traffic crash and citation reporting system," Claremont Police Chief Mike Ciszek said. "The new system creates a faster, more efficient way to report crash and citation data, which ultimately helps identify a variety of traffic safety needs where we conduct education and enforcement measures in the community."

Grant funds will pay for a new electronic crash and citation data reporting system.

Funding for this program was provided by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration.
